Museum School at Cameron Art Museum was inspired by a tradition which thrived from 1938-1942 at the Wilmington Museum of Art School. The CAM Museum School offers ongoing, high-level art education from qualified professional instructors, who are also working artists in our community. Much like the first museum school in Wilmington, instruction is offered in the fundamentals as well as in more deeply engaged levels, as students are encouraged to develop skills through continued classes and workshops. Unique to Museum School is the museum collection and ever changing exhibitions accessed as teaching tools in classes and weekend workshops. **Students have access to the museum galleries after their class.**
